You are C: Scheduler

You build the schedule: assign umpires to games, add notes, and close a field when it rains. You should NOT see Reports or Payments.

Sign in with	**erik+scheduler@rwcll.org**
Password	**erik+scheduler111**
Tabs you should see	Umpires, Games, Field board, League Setup, My details
Session 1 (setting up)	You take part (11 steps)
Session 2 (game day and after)	You take part (8 steps)

Rules of the day

- This is a test of the APP, not of you. If something is confusing, that IS the finding: write it down.
- Use your own device (a phone if you can). If you play two people, use two browser windows, one of them private, and keep their pretend clocks separate.
- Do only what your sheet says, when your cue arrives. The facilitator announces each phase on the call.
- Stuck for 3 minutes? Write down the step number and what you saw, tell the facilitator, and move on.
- Do NOT fix or change anything your sheet does not ask for.
- Everything runs on the TEST database. All emails go only to the facilitator's inbox, marked [TEST for ...]. No real person receives anything, and no money moves.
- Tick Pass or Fail for every step. The words on the screen may differ slightly from the sheet: that is fine, but note if a button was hard to find.
- Pretend time (the bar at the top of the page) only changes YOUR browser. Press Use real time when a phase says so.
- A star after a step number (for example 3.1 ★) marks a MUST-PASS step: the minimum the app has to do.

Good to know

- Pretend time changes what the screens, check-in and notes see. A few database rules (such as the date limit when the treasurer works out earnings) use the real date, which is why Phase 7 uses last month's real seeded games.
- The app sends email about every 5 minutes by itself. During the test the facilitator runs the sender by hand, so messages arrive when announced.
- The sign-up email in step 1.1 is the real sign-up system (it goes to a real address), unlike every other message.
- Stripe (real payments) is not built yet. Step 7.11 is a placeholder where your opinion is the result.
- The consent wording is DEMO wording. The real wording will come from the board.
- Written on the sheets: logins and the shared test password. These accounts exist only on the TEST database.

Session 1: Setting up: your steps (C: Scheduler)

Wait for the facilitator to announce each phase. Within a phase, do a step when its Start when cue happens. Steps for ALL are for everyone.

Session 1: Setting up

Get everyone signed in, add a new umpire, link a parent, build Saturday's schedule, and handle the younger umpire who needs consent. About 70 minutes. The Treasurer can skip this session.

#	Start when	Where	What to do	What you should see	Result	Notes
Phase 0: Before we start Facilitator only, then everyone signs in and checks their screen. About 15 minutes.						
0.6 ★	*After 0.5 (Facilitator)*	Your own device (a phone if you can)	Open the TEST site address from the facilitator. Sign in with the login on your cast sheet. Look at the tabs across the top. Press Sign out, then sign in again.	You land signed in and the tabs match the list on your sheet. Sign out works. Write down anything odd, such as slow loading or a layout that does not fit your phone.	[ ] Pass [ ] Fail	
0.7	*After 0.6*	Top of the page: the Pretend time bar	Press Set pretend time, pick any date and time, press Set. Then press Use real time.	A bar says Pretend time: (the time you chose) (not real). After Use real time it goes away. (Pretend time only affects your own browser.)	[ ] Pass [ ] Fail	
Phase 2: Building the schedule Assign umpires to Saturday Nov 14, confirm, take a game, set availability, and try the umpire suggestions. About 25 minutes.						
2.1	*Phase 2 begins*	League Setup	Look at the season and the divisions. Do not change anything.	You see Fall 2026 and the divisions A, AA, AAA, Majors, Juniors and Seniors, and a list of fields.	[ ] Pass [ ] Fail	
2.2	*After 2.1*	Games	Set From to 2026-11-14 and look at Saturday Nov 14.	24 games on Nov 14 (the last ones start in the afternoon). Many show OPEN in the Umpires column (nobody assigned).	[ ] Pass [ ] Fail	
2.3	*After 2.2*	Games	Press Print schedule. When the print view appears, close it without printing.	A printable schedule opens, with games grouped by day. Nothing prints.	[ ] Pass [ ] Fail	
2.4 ★	*After 2.2*	Games	Assign Liam Smith (youth) as the plate umpire of this game: 9:00 AM, A division, A-Yankees vs A-Dodgers, Roy Cloud Elementary. Use that game's assign button in the Actions column, choose Liam Smith for Plate, and save.	The game now shows Liam Smith and is no longer OPEN. If the screen shows eligibility notes for youth, Liam is allowed (he is 14).	[ ] Pass [ ] Fail	
2.5	*After 2.4*	Games	Assign Michael Chang as the plate umpire of this game: 9:00 AM, AA division, Bechet Field. (He already has the Majors game at 12:30 PM: that is fine.)	Michael Chang appears on the 9:00 AM AA game at Bechet Field. No overlap warning (his seeded games that day are at 12:30 PM and 5:00 PM).	[ ] Pass [ ] Fail	
2.10	*After 2.8 (Adult Umpire)*	Games	Look at Saturday Nov 21 and find the game Michael Chang took.	His name is on that game.	[ ] Pass [ ] Fail	

#	Start when	Where	What to do	What you should see	Result	Notes
2.12	*After 2.11 (Facilitator)*	Games, then Umpires on a game	Open the Umpires panel of this game, where nobody is assigned: 11:00 AM, A division, A-Cardinals vs A-Athletics, Orion School. Under the Plate place press Suggest umpires. Read the list and the line under it. Press Use for the first person and look at the Plate place. Then press Cancel (do NOT save).	Up to five umpires, best first, each with short reasons in plain words (for example 'Said they can umpire at this time', or '0 games this season (the others average 3)'). A line starting 'Left out:' says how many were busy, marked unavailable, not allowed by the age or division rules, or need a parent's consent first (the count includes Sam Young, whose mother has not consented yet). Use fills the Plate place; Cancel closes the panel and saves nothing, so the game still shows OPEN. Write down whether the order looks sensible to you.	[ ] Pass [ ] Fail	
Phase 3: A younger umpire needs a parent's consent Sam Young is 11. The system must refuse until his mother consents. About 15 minutes.						
3.1 ★	*Phase 3 begins*	Games	Try to assign Sam Young (age 11) as the plate umpire of this game: 11:00 AM, A division, A-Mets vs A-Phillies, Kennedy Middle School.	The system REFUSES with a message like: That umpire is under 13 and needs a parent or guardian's consent before they can be assigned. The game is unchanged.	[ ] Pass [ ] Fail	
3.4 ★	*After 3.3 (Parent) (Parent says 'consent given')*	Games	Try again: assign Sam Young as the plate umpire of: 11:00 AM, A division, A-Mets vs A-Phillies, Kennedy Middle School.	It now works. The game shows Sam Young.	[ ] Pass [ ] Fail	

Notes and problems (C: Scheduler, Session 1)

Write one line for each problem. Blocker = I could not continue. Annoying = it worked but was confusing or slow. Idea = something that would help.

Step #	What happened, or what confused you	Blocker / Annoying / Idea	Who saw it too?

My score, from 1 (I would not trust it) to 5 (I would happily use it next season): _____

The three most confusing moments:

1. _____
2. _____
3. _____

One thing that worked well: _____

Session 2: Game day and after: your steps (C: Scheduler)

Wait for the facilitator to announce each phase. Within a phase, do a step when its Start when cue happens. Steps for ALL are for everyone.

Session 2: Game day and after

The day before, game day, the reports, payroll, and the later changes (consent withdrawn, turning 18), then the things that must not work. About 2 hours. Everyone takes part.

#	Start when	Where	What to do	What you should see	Result	Notes
Phase 4: The day before (pretend Friday Nov 13) Reminders go out, and parents are copied. About 15 minutes.						
CLOCK: Everyone sets pretend time to Fri 11/13/2026, 9:00 AM.						
4.0b	*After 4.0a*	Your own device	Open the TEST site and sign in with your login (if you were in Session 1 and are still signed in, just check). Look at your tabs. If you were not in Session 1, read page 1 of your sheet first.	You are signed in and your tabs match your sheet. The Treasurer, who skipped Session 1, does steps 0.6 and 0.7 here instead (sign in, then try the pretend time bar).	[ ] Pass [ ] Fail	
Phase 5: Game day (pretend Saturday Nov 14) Check-in, running late, a no-show, a replacement, notes, and a rainout. About 30 minutes.						
CLOCK: Everyone sets pretend time to Sat 11/14/2026, 7:30 AM to start. Steps say when to move your clock forward.						
5.9	*After 5.4 (Youth Umpire)*	Field board or Games, on the 9:00 AM Roy Cloud Elementary game	Add TWO notes to that game. First: TEST: Park behind the gym (leave Administrators only UNticked). Second: TEST: Coach argued last week, admins only (tick Administrators only). Save each.	Both notes are saved. The second is marked Administrators only.	[ ] Pass [ ] Fail	
5.11 ★	*After 5.8 (Umpire Chief)*	Field board	**CLOCK: Sat 11/14 10:15 AM** Set pretend time to Sat 10:15 AM. Use the close-a-field form: Field Kennedy Middle School, From 10:30 AM, To 6:00 PM, Reason TEST: rain. Press the button that lists the games it will cancel, check the list, then press Cancel these games. (The Rainout bar is blue with a rain-cloud icon.)	The list shows ONE game: 11:00 AM A-Mets vs A-Phillies (Sam Young's game). After you confirm, that game shows as canceled and a red Closed today box appears ABOVE the rainout section, naming the field, the time and the reason, with a Reopen button. Fold the rainout section: the red box stays.	[ ] Pass [ ] Fail	
5.15	*After 5.14 (Umpire Chief)*	Games	Press Download CSV and open the file.	A spreadsheet downloads with one line per game and its umpires.	[ ] Pass [ ] Fail	
Phase 7: Payroll (no real money) Earnings from last month's real seeded games, a payroll, approval, and recording a payment. About 25 minutes.						
CLOCK: Everyone: press Use real time. Payroll uses the earlier games already in the system.						

#	Start when	Where	What to do	What you should see	Result	Notes
7.11	*After 7.10 (Treasurer)*	STRIPE PLACEHOLDER: nothing to press	In the real system, this is where each parent would press Set up payments (a Stripe screen) and where the treasurer would send the approved money through Stripe. It is NOT built yet. Write down: where would you expect to find it, what would you want to see, and what would worry you about being paid this way?	Nothing happens. Your notes are the result.	[ ] Pass [ ] Fail	
Phase 8: Families, later Consent withdrawn, and a youth turning 18. About 15 minutes.						
8.2 ★	*After 8.1 (Parent)*	Games	Try to assign Sam Young as the plate umpire of: 11:00 AM, A division, A-Cardinals vs A-Athletics, Orion School.	REFUSED again with the consent message.	[ ] Pass [ ] Fail	
Phase 9: Things that must NOT work Each person tries to open a page they should not be able to. About 10 minutes.						
9.4 ★	*Phase 9 begins*	The address bar	Try #/reports and #/payments.	Neither shows a page. You have no Reports or Payments tab.	[ ] Pass [ ] Fail	
Phase 10: Wrap-up Everyone writes down what they thought. About 10 minutes.						
10.1	*Phase 10 begins*	Your notes page	Fill in the Notes and problems page: the three most confusing moments, anything that did not work, and one thing that worked well. Give a score from 1 (I would not trust it) to 5 (I would use it next season).	A completed page. Be honest: nothing here is a test of you.	[ ] Pass [ ] Fail	

Notes and problems (C: Scheduler, Session 2)

Write one line for each problem. Blocker = I could not continue. Annoying = it worked but was confusing or slow. Idea = something that would help.

Step #	What happened, or what confused you	Blocker / Annoying / Idea	Who saw it too?

My score, from 1 (I would not trust it) to 5 (I would happily use it next season): _____

The three most confusing moments:

1. _____
2. _____
3. _____

One thing that worked well: _____
