Rules of the day

- This is a test of the APP, not of you. If something is confusing, that IS the finding: write it down.
- Use your own device (a phone if you can). If you play two people, use two browser windows, one of them private, and keep their pretend clocks separate.
- Do only what your sheet says, when your cue arrives. The facilitator announces each phase on the call.
- Stuck for 3 minutes? Write down the step number and what you saw, tell the facilitator, and move on.
- Do NOT fix or change anything your sheet does not ask for.
- Everything runs on the TEST database. All emails go only to the facilitator's inbox, marked [TEST for ...]. No real person receives anything, and no money moves.
- Tick Pass or Fail for every step. The words on the screen may differ slightly from the sheet: that is fine, but note if a button was hard to find.
- Pretend time (the bar at the top of the page) only changes YOUR browser. Press Use real time when a phase says so.
- A star after a step number (for example 3.1 ★) marks a MUST-PASS step: the minimum the app has to do.

Good to know

- Pretend time changes what the screens, check-in and notes see. A few database rules (such as the date limit when the treasurer works out earnings) use the real date, which is why Phase 7 uses last month's real seeded games.
- The app sends email about every 5 minutes by itself. During the test the facilitator runs the sender by hand, so messages arrive when announced.
- The sign-up email in step 1.1 is the real sign-up system (it goes to a real address), unlike every other message.
- Stripe (real payments) is not built yet. Step 7.11 is a placeholder where your opinion is the result.
- The consent wording is DEMO wording. The real wording will come from the board.
- Written on the sheets: logins and the shared test password. These accounts exist only on the TEST database.

Session 1: Setting up: your steps (B: Umpire Chief)

Wait for the facilitator to announce each phase. Within a phase, do a step when its Start when cue happens. Steps for ALL are for everyone.

Session 1: Setting up

Get everyone signed in, add a new umpire, link a parent, build Saturday's schedule, and handle the younger umpire who needs consent. About 70 minutes. The Treasurer can skip this session.

#	Start when	Where	What to do	What you should see	Result	Notes
Phase 0: Before we start Facilitator only, then everyone signs in and checks their screen. About 15 minutes.						
0.6 ★	*After 0.5 (Facilitator)*	Your own device (a phone if you can)	Open the TEST site address from the facilitator. Sign in with the login on your cast sheet. Look at the tabs across the top. Press Sign out, then sign in again.	You land signed in and the tabs match the list on your sheet. Sign out works. Write down anything odd, such as slow loading or a layout that does not fit your phone.	[ ] Pass [ ] Fail	
0.7	*After 0.6*	Top of the page: the Pretend time bar	Press Set pretend time, pick any date and time, press Set. Then press Use real time.	A bar says Pretend time: (the time you chose) (not real). After Use real time it goes away. (Pretend time only affects your own browser.)	[ ] Pass [ ] Fail

1.6 ★	*After 1.5*	Families	In the Needs attention list find Oliver Miller (no parent linked). On his card choose Rita Miller in the dropdown, leave Mother, and press Link.	Linked to Oliver Miller. His card now shows Rita Miller (Mother). Oliver leaves the Needs attention list. Elijah Davis is still listed (no parent linked): that is expected.	[ ] Pass [ ] Fail	
Phase 3: A younger umpire needs a parent's consent Sam Young is 11. The system must refuse until his mother consents. About 15 minutes.						
3.2	*After 3.1 (Scheduler)*	Families	Find Sam Young's card and the Needs attention list.	Sam shows a Waiting for consent badge and Maria Smith is listed as his mother with 'no consent yet'. Needs attention says he needs a parent's consent before he can be assigned.	[ ] Pass [ ] Fail
